Golm, 2016-03-16

Dear Pau,

This letter is to confirm that the fellowship position you had from 2005 to 2011 at the Max Planck Institute of Gravitational Physics allowed you to freely decide about the attendance time to conduct research in the division of Professor Bernard Schutz.

Since the fellowship guidelines of the Max Planck Society provide a flexible time management, I, the Head of Administration of the Institute in which your research took place, did agree that you partly were away from the Institute to stay at home to look after your children.

  
Christiane Roos

Head of Administration
